To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for the services provided to the West Warwick Public Schools by Robert and Lori Bomes of the AGI Consulting Group, LLC. During the past six months, Bob and Lori directed a team building session, administered and analyzed numerous talent assessment profiles, provided pre-employment guidance and conducted executive coaching sessions with cabinet level administrators. In each and every type of activity described above, they provided highly professional services that I believe will lead to increased levels of performance throughout the district.

In particular, I found the executive coaching sessions I participated in extremely valuable. The coaching I received has helped me to be more focused and direct in identifying and meeting goals that will positively impact the operations of the West Warwick Public Schools.

As a result of our work with AGI Consulting, my management team is working more closely and effectively. I thank and recognize Lori and Bob for their services and commend them highly to any professional team for their ability to produce results.

Sincerely,

A handwritten signature in cursive script that reads "David P. Raiche".

David P. Raiche
Superintendent of Schools
